

# **Contracts Register**

Public Sector buying organisations must keep and maintain a Contracts Register which contains information on contracts they have awarded which are valued at £50,000 or above excluding VAT for goods and services (also known as regulated procurements).

Quickfire Guide

Quickfire Guide

## **Contract Register Contents**

The minimum information that must be included in the Contracts Register for each contract awarded is as follows:

- the date the contract was awarded
- the name of the contractor(s) the contract has been awarded to
- the subject matter of the contract
- the estimated value of the contract
- the start date of the contract
- the end date of the contract (excluding contract extensions). If the date is not provided, a description of the circumstances when the contract will end
- the duration of any contract extension periods.

There are some exceptional circumstances when a buyer can withhold some of the above information e.g. if disclosing information were:

- to impede law enforcement
- be contrary to the public interest
- prejudice the commercial interests of any person
- prejudice fair competition between suppliers.

The Contracts Register can be a valuable source of information. As listed above, it will contain information on current contracts and who is supplying them, as well as information on when the next contract is due for renewal.

## **Where Can I Find the Contracts Register?**

Public sector buying organisations must make their contract register information free and publicly available on the internet.

Some public sector buying organisations will publish their contract register information on their own website.

[Public Contracts Scotland](#) (PCS) has included a Contracts Register facility for buyers to complete.
